

MOSES APRIUS NICOLA

COMPUTER AND NETWORK ENGINEERING

ABOUT ME

I am a student at Pelita Nusantara vocational High School Major Computer Networking & Engineering. Alongside my formal education, I actively explore and study various related fields independently to strengthen my technical skills. I have hands-on experience in configuring Mikrotik routers, setting up and managing Fiber Optic networks, and understanding the basics of Electronics.

My passion for technology comes from the belief that it continuously evolves and will always play a crucial role in the future. This motivates me to keep learning and adapting to new developments in the field. I am enthusiastic about gaining real-world experience through internship programs (PKL) to sharpen my abilities, work collaboratively with professionals, and prepare myself for the demands of the tech industry.

EDUCATION

TKJ - SMK PLUS PELITA
NUSANTARA CIBINONG
2023-2026

SMP MARDI WALUYA
CIBINONG 2020-2023

SKILL

- Mikrotik 78%
- Fiber Optics 75%
- Electronics 70%
- Server 60%
- Hardware 82%
- Time Management Good
- Team Work Good

EXPERIENCE

- Troubleshooting network issues
- Troubleshooting hardware problem
- Creating an electronics project
- Resolving Hardware Issues independent
- Configuration VLAN and Hotspot

PROJECT

- Smart Infusion Monitoring System
- Smart Blood Monitoring System
- Smart Energy Meter
- Body Temperature Monitoring System
- Heart Rate Monitoring System
